

Dear Sir/Madam,

The designated operator of **MALI**, Mali Post, asks me to inform UPU member countries of the following:

"Mali Post has noted that a high number of illicit stamps issued in the name of the Republic of Mali are being sold through various online shops, and that this has been going on for some time. The existence of these illicit issues and their circulation do serious harm to Mali's postal services, to the international community and to collectors.

"The negative publicity given to our country through the illegal postage stamps amounts to a serious attack on the moral, religious and economic integrity of the Republic of Mali; its postal service; and the Universal Postal Union as a whole. It is a serious and flagrant violation of the national legislation of the Republic of Mali, as well as article 8 of the Universal Postal Convention and the associated provisions of the Letter Post Regulations.

"On this occasion, Mali Post asks for the cooperation of the international postal community, as well as the postal sector, to help identify the creators and producers of the illicit issues, so that they can be denounced and punished.

"Mali Post wishes to remind interested parties, in particular collectors and other postal services, of the list of postage stamps officially issued by its services since 2002, when Mali became a member of the WNS, the UPU's worldwide stamp numbering system:
